Be Your BEST
Believe – Excellence – Safe – Team

Year 2 Term 1

Home, Sweet Home

Can you choose where you belong?

Geography

Aerial photographs show things from a birds eye view.

Plan perspectives are maps created from a bird's eye view.
Plan perspectives use symbols and shapes instead of photographs.

Plan perspectives need a key to show what each symbol means.

Plan perspectives need compass directions to show which direction to travel.

The top of the plan perspective or map is usually North.

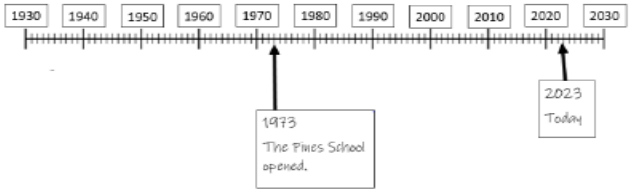

You can identify landmarks from aerial photographs and from plan perspectives.

History

Bracknell town has changed over the last 100 years.
We can use photographs, newspapers and other sources to find out about Bracknell in the past.

Events from the past can be put on a timeline in chronological order.

Black History Month: We will find out about two important people from the past.
Olaudah Equiano who wrote about his story as a young slave. His writing helped to end the slave trade.
Betty Campbell who was the first black headteacher in Wales. She helped to set up Black History Month.

Key Vocabulary

Word	Definition
Aerial photograph	A photograph that is taken from the air using a bird's eye view.
Plan Perspective	A simple picture of an aerial view that helps us understand where things are. A plan perspective can be used as a simple map.
Symbol	An image used to represent something. In maps symbols represent landmarks and geographical features.
Key	A guide which explains the symbols on a map.
Fieldwork	Asking a geographical question, planning how to collect data, collecting data, presenting data and analysing data.
Landmark	A feature of a place which is easy to see or recognise.
Compass points	The directions on a compass: North, East, South, West.
Chronological order	A way of arranging things in the order they happened.
Past	Something that has gone by in time and no longer exists.
Present	Happening now.
